**\*Workshops for students PXL-Education**

Your visit is a great opportunity for our PXL-students from the faculty of pre-primary, primary and secondary education to participate in an international workshop about diversity and good practices from your institution. Knowing more about your country, region, educational system, university... is very inspirational for our future teachers. In every room there will be a Smart-TV to stream your presentation (incl. audio system, use of HDMI).

**\*\*Co-teaching/observation with PXL-Education lecturers**

An international week is also a great opportunity to connect with our lecturers and (co-)teach where possible within your field of interest. We will provide, in advance, a list of colleagues who are interested in (co-)teaching and/or open their classroom for observation from your part. We strongly encourage you to participate in every possible way 😊.

**\*\*\*Information sessions for PXL-students – international study/placement**

During their 3rd Bachelor year students from PXL-Education can participate in an international study programme (1<sup>st</sup> semester) and/or international placement (1<sup>st</sup> and/or 2<sup>nd</sup> semester). During this evening we would like to ask every participant to briefly present (30 min. + Q&A) their home institution and international study programme.

**\*\*\*\*Field visits and/or observation PXL-lessons**

We would like to invite you to pay a visit to our partner schools (pre-primary, primary and/or secondary education) and learn more about our school system.
