

# Teaching in an urban environment

Do you want to learn more about social inequality in the Dutch school system, teaching in an urban school, parental involvement, sustainable development goals (SDGs), global citizenship and many other related topics? Then sign up for this minor!

# Introduction to this minor

This course aims to foster urban teaching and develop the skills that are necessary to become an effective and productive urban teacher. It is important to learn how to live and work effectively in a diverse world and to be able to apply a broader perspective to the world around you in order to become more interculturally competent.
