Invitation Erasmus+ Blended Intensive Programme for Staff “Micro-credentials Master lab”

Dear partners

We are excited to invite you to participate in PXL’s upcoming **Erasmus+ Blended Intensive Programme for Staff “Micro-credentials Master lab”**, taking place from **19 to 23 October 2026 at PXL in Hasselt, Belgium**. An online session is scheduled for the week of 28 September.

This initiative offers an inspiring opportunity for international partners to co-develop new joint Micro-credentials (MCs) within our bachelor programmes. Our goal is to foster collaboration, share expertise, and build on the insights gained from existing MCs, in alignment with the objectives of the DIVERSE alliance.

During the Master lab, we will focus on developing MCs in the following areas (with the originating fields of study for reference):

- Interprofessional Collaboration - Healthcare and other study areas
- Quality and Patient Safety -Healthcare
- International Media - Journalism
- Entrepreneurship - Communication
- Interprofessional Collaboration - Healthcare
- Intercultural Wellbeing and Belonging in Digital Work and Learning - Applied psychology
- Inclusion in Media, Arts and Design – Arts & Design
- Global Competences – Soft Skills for Sustainability - Tourism
- **Reclaiming Knowledge - Indigenous Education & Responsive Pedagogy - Teacher education**
- Eco-Social Work: Responding to the Defining Challenges of Our Time - Social work

Why join?

- Contribute your expertise to the development of new joint MCs
- Collaborate with PXL staff and its international partners
- Collaborate with and learn from the existing DIVERSE MC teams for alignment and co-creation
- Strengthen international partnerships and explore future collaborations

We warmly invite all DIVERSE partners and PXL partners interested in contributing, as well as staff and experts involved in existing MC initiatives.

Note that participants must take part in the BIP for the full 5 days, within the framework of Erasmus STT, to meet the Erasmus conditions for Blended Intensive Programmes.

We look forward to collaborating with you and shaping the next generation of Micro-credentials together!

Please register for the Master Lab through [this registration link](#) by **30 May**.
