UG infrastructure

The University of Gdańsk is expanding across three campuses: Oliwa, Sopot and Gdynia. New faculty buildings and laboratories with state-of-the-art equipment create better conditions for research, teaching and cooperation with business.

Our students have access to advanced laboratories, such as:

- Laboratory for the Simulation of Television Recordings and Film Documentation - the most modern academic television studio in Poland,
- modern, fully equipped radio studio,
- Thomson Reuters Data Suite, which provides free access to financial data relating to firms,
- unique dealing room, in which they may practice stock-market operations in real time,
- modern translation laboratory for teaching oral translation,
- workshop for applied work in medical physics and for medical imaging.

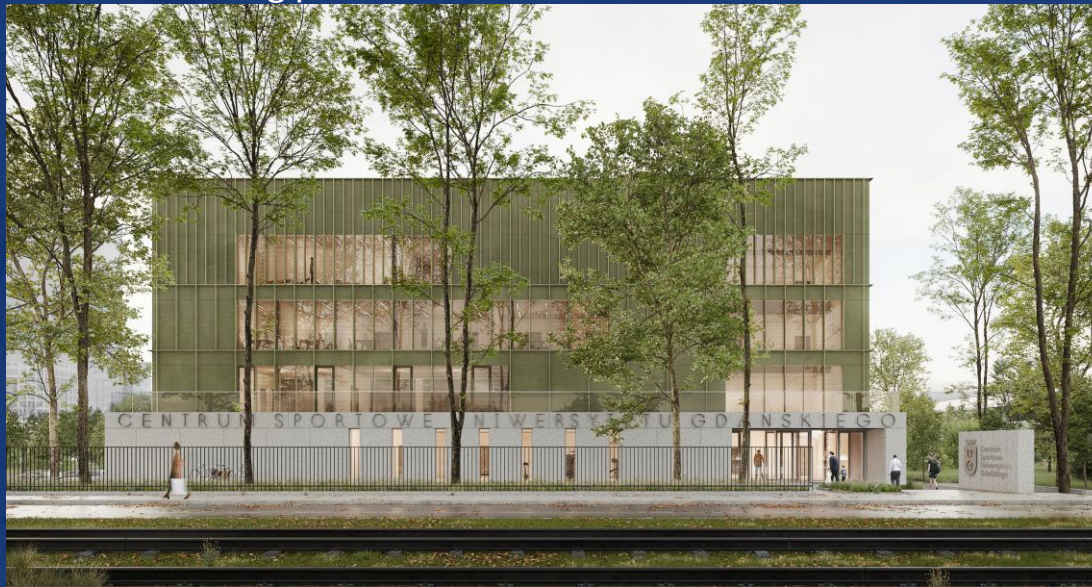

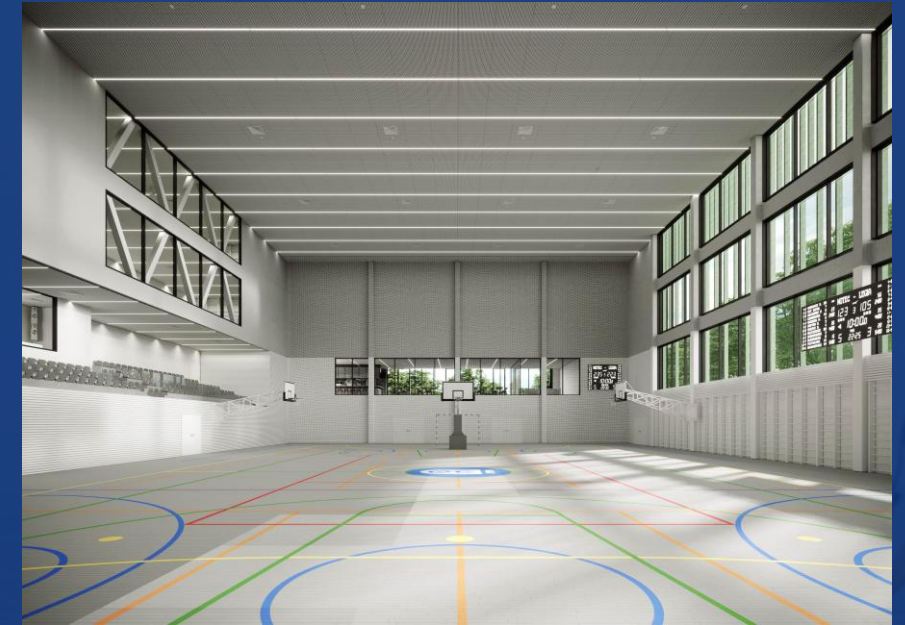

UG infrastructure

The new academic year also marks the opening ceremony of the new Sports Centre.

NEW UG Sports Centre, which include:

- sports hall with a full-size basketball, volleyball, and futsal court and seating for 270 spectators,
- gym, cardio room, fitness room, martial arts room, music and movement room, and wellness facilities,
- full-size football pitch,
- tennis hall,
- outdoor basketball and beach sports courts,
- tennis courts,
- sports and training hall,
- 25-metre swimming pool.

Faculties and doctoral schools

Faculties:

- ✓ Faculty of Biology
- ✓ Faculty of Chemistry
- ✓ Faculty of Economics
- ✓ Faculty of History
- ✓ Faculty of Languages
- ✓ Faculty of Law and Administration
- ✓ Faculty of Management
- ✓ Faculty of Mathematics, Physics and Informatics
- ✓ Faculty of Oceanography and Geography
- ✓ Faculty of Social Sciences
- ✓ Intercollegiate Faculty of Biotechnology UG&MUG

Doctoral schools:

- ✓ 11 Doctoral schools, one per each Faculty

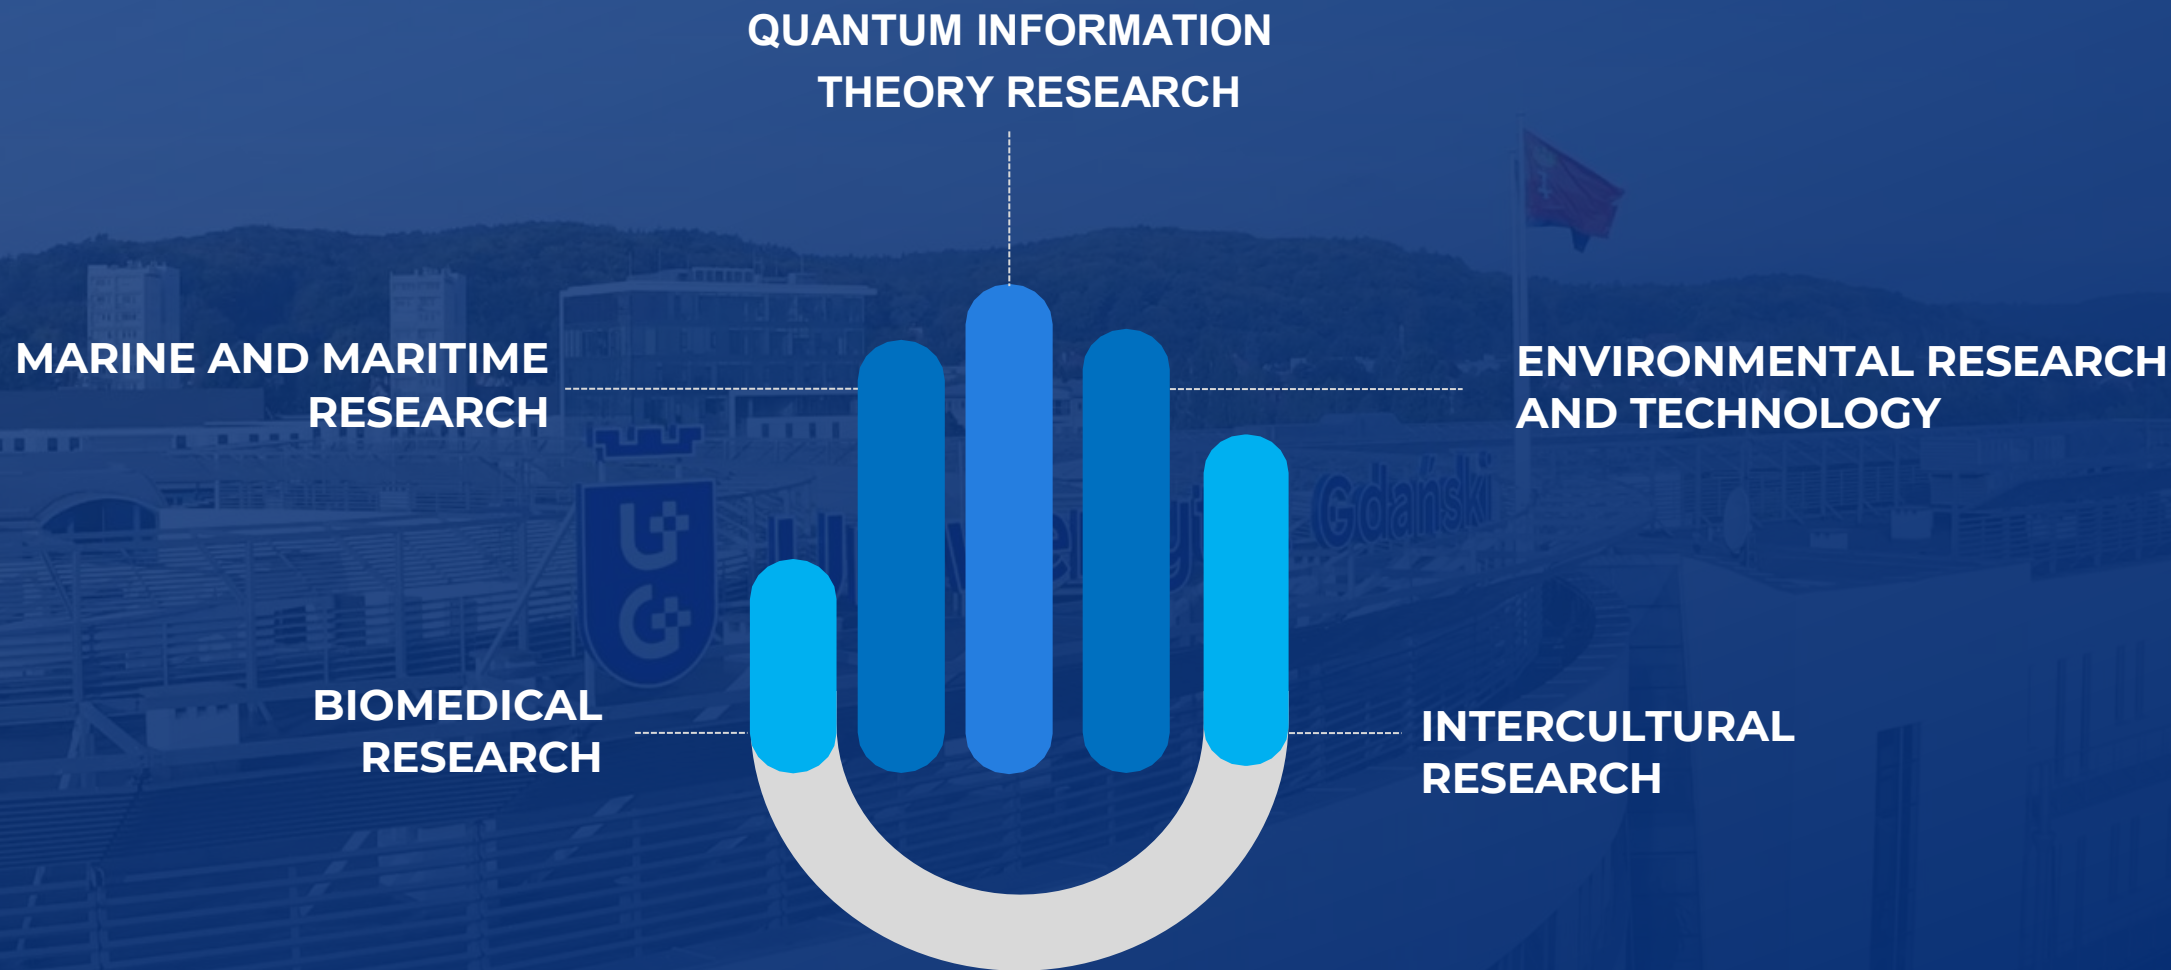

STUDY OFFER IN ENGLISH

- ✓ Chemistry with a spec. Digital Chemistry, MSc
- ✓ International Business, BSc and MSc
- ✓ Logistics and Mobility, BSc and MSc
- ✓ Cultural Communication, BA
- ✓ Criminology and Criminal Justice, BA
- ✓ Quantum Information Technology, MSc
- ✓ Finance and Accounting with spec. Financial Analyst, BSc
- ✓ Finance and Accounting, MSc
- ✓ Informatics and Econometrics with spec. Digital Transformation, MSc
- ✓ Management, MSc
- ✓ Global Studies, MA
- ✓ Solidarity Studies, MA
- ✓ Tourism and Hospitality, MA
- ✓ Marine Biotechnology, MSc

SEA-EU JOINT PROGRAMMES

- ✓ Sustainable Blue Economy (SeaBluE), BA
- ✓ Port Management and Logistics (MIPMAL), MSc
- ✓ Sustainability Transition for Organisations and Resilience Management (STORM), MSc

Priority Research Areas (PRA) for the University of Gdańsk

Maritime profile-possible cooperation

The University of Gdańsk is open to partnerships built around its **maritime profile**, combining research, education and links with the maritime sector. Examples of **possible cooperation include**:

- **Joint research projects** – e.g. Baltic Sea ecosystems, climate change and marine biodiversity (Institute of Oceanography, UG Marine Research Center);
- **Joint and double degree programmes** – e.g. in maritime and admiralty law, or digital and international law (Faculty of Law and Administration);
- **Student and staff mobility** – Erasmus+ exchanges, research stays, summer schools and joint PhD supervision;
- **Maritime economy and logistics** – shared studies on ports, transport and international trade, plus internships with port and shipping partners (Faculty of Economics).

*Partners are also welcome to join **joint events and networks**, such as conferences, workshops and Baltic Sea region initiatives on marine protection and sustainable maritime economy.*

*UG offers partners **Gdańsk's maritime heritage combined with modern research and innovation**, contributing to a sustainable future for the Baltic Sea region.*

WORLD-RENOWNED SCIENTIFIC RESEARCH CENTRES

iccv.s.ug.edu.pl

International Centre for Research on Cancer Vaccines

(collaboration with The University of Edinburgh (Edinburgh, UK))

International Centre
for Theory of Quantum
Technologies

ictqt.ug.edu.pl

International Centre for Theory of Quantum Technologies

(collaboration with the Institute for Quantum Optics and Quantum
Information of the Austrian Academy of Sciences (IQOQI-Vienna))

UG Centre for Sustainable Development

Possible cooperation

- Joint research projects and grant applications (e.g. Horizon Europe, Erasmus+, NAWA) addressing the Sustainable Development Goals
- Student and staff mobility, including exchanges, internships and visiting lectures, focused on sustainability
- Joint educational programmes, summer schools and courses on the 2030 Agenda
- Co-organisation of conferences, seminars and workshops on sustainable development
- Sharing best practices in integrating the SDGs into teaching, research and university operations
- Joint publications and research exchange between academic teams
- Participation in regional and international university networks and partnerships for sustainable development

EUROPEAN UNIVERSITY OF THE SEAS

Co-funded by the
Erasmus+ Programme
of the European Union

The European University of the Seas (SEA-EU)

was officially launched in October 2019 as part of the flagship European University Initiative.

It was created as an alliance of 6 universities that share a close link to the seas as an essential feature.

In 2023, SEA-EU welcomed **3 new members**, bringing the total number of universities involved to 9. Together with **more than 75 stakeholders**, they co-create the future of European Higher Education.

Joint Programmes

STORM

Sustainability Transition
for Organisations and
Resilience Management

- Studies for managers ready for every situation
- Pick between internship and research track
- Master's Programme
- Study across 5 prestigious coastal universities

MIPMAL

Port Management and
Logistics

- Lead in a thriving sector of global trade
- Study across 5 prestigious coastal universities
- Gain expertise in port operations, sustainable transport systems, and logistics integration
- Master's Programme

SeaBluE

Sustainable Blue
Economy

- Work in sectors such as marine conservation, sustainable fisheries, and maritime policy
- Study across 7 prestigious coastal universities
- Bachelor's Programme
- Pick between 6 specialisation pathways

UNION OF UNIVERSITIES IN GDAŃSK

DEVELOPMENT | COOPERATION | INTERNATIONALIZATION

EFFICIENT USE OF FIVE UNIVERSITIES' POTENTIAL

Strengthening **cooperation** and exploring new collaboration areas

Participation in **international** research projects.

Launching new intercollegiate **initiatives**, including in education.

Boosting publishing activities for common promotion and **international** ranking policy.

International cooperation

From mobility to international experience for all

*Internationalisation at Home in the European Higher
Education Area and the European Education Area*

Mobility is extremely valuable

The EHEA and EEA have made it easier for students to study abroad, for staff to work with colleagues from other countries, and for universities to build joint initiatives.

1,400

Erasmus+ mobilities at the
University of Gdańsk last year

But who actually has access to this experience?

Financial reasons, family responsibilities, work, health issues or simply personal circumstances mean not every student – or staff member – can travel.

Instead of asking only: “How many students can we send abroad?”
we should also ask: “How can we bring international experience to all our students?”

What is Internationalisation at Home?

“The purposeful integration of international and intercultural dimensions into the formal and informal curriculum for all students within domestic learning environments.”

— Beelen & Jones

Purposeful

Having international people on campus does not automatically create internationalisation — we must actively create opportunities for people to meet, work together and learn from one another.

Formal & Informal

It happens in joint courses, online discussions and case studies — but just as much in workshops, student events and everyday campus life.

For All Students

It doesn't replace mobility — it complements it, extending international and intercultural learning to a much larger part of the community.

Mobility for some + International experience for all

How we do it at the University of Gdańsk

Internationalisation at Home is not one programme – it is an ecosystem combining:

Visiting Professors

Scholars teach and meet our students – international experience comes directly to Gdańsk.

BIPs & Staff Weeks

BIPs blend online teaching with a short mobility period;

Welcome Centre

Everyday activities where Polish and international students, researchers and staff meet.

SEA-EU-initiatives

Microcredential with SEA-EU partners: digital, adaptive and intercultural skills. Language tandems, Language courses.

38

BIPs in 2025 – up from 19 in 2024

174

students sent to BIPs in 13 countries

17

visiting scholars from 12 countries (5th edition)

Visiting Professors Programme

Scholars from abroad teach in our programmes and meet our students on campus.

5th

edition of the programme

17

visiting scholars hosted

12

countries represented

They teach

Visiting scholars bring new knowledge and perspectives into our classrooms.

They meet our students

Students meet academics from other countries without leaving Gdańsk.

They share experience

Knowledge and experience from other academic cultures reach all our students.

International experience comes directly to Gdańsk

Visiting Professors Programme

@UNIWERSYTET_GDANSKI

 FOR MORE INFO, CLICK HERE

BIPs & Staff Weeks

Two flexible ways to bring the international experience to every student and Staff.

Blended Intensive Programmes

A form of Erasmus+ mobility combining online teaching with a short period of physical mobility, delivered by at least three higher education institutions.

38

BIPs in 2025 (19 in 2024)

174

students sent to BIPs in 13 countries

Staff Weeks and International Weeks

- **Staff Weeks** at the University of Gdańsk bring administrative and academic staff from partner institutions to Gdańsk for a few days of exchange. Guests share good practices, build professional networks and explore opportunities for future cooperation. They are supported under Erasmus+.
- **International Weeks** are events in which the University of Gdańsk hosts guests from partner universities in EU and non-EU countries. These include workshops, campus tours, and networking. In the future, we will organise open lectures to **give our students the chance to learn from visiting international experts and experience internationalisation** at home.

Both formats promote mutual learning and long-term academic cooperation.

BIPs doubled in one year: they are flexible – students work together online first, then meet in person for a short mobility.

„LOSt in Gdańsk!” Słodka i słona – opowieść o dwóch wodach – Centrum Języka Polskiego UG

Welcome Centre

Not only an information point — a place where Internationalisation at Home happens every day.

A place to meet

Polish and international students, researchers and staff can meet, talk and work together.

Every academic year we prepare a calendar of activities that creates everyday opportunities for interaction.

Activities such as

Language
courses,
International
Coffee
meetings

Latin dance

Yoga,
Mindfulness

Simple, informal activities that give people a reason to come together.

What does yoga have to do with internationalisation? Quite a lot:
people meet, talk, laugh and build relationships — a sense of belonging.

SEA-EU Initiatives

Internationalisation becomes part of education itself.

15 ECTS

Future Skills micro-credential
developed with our SEA-EU
partners

<https://sea-eu.ug.edu.pl/program-micro-credentials-future-skills/>

Students take courses offered by partner universities and, after completing 15 ECTS, receive formal recognition of their skills.

Digital

Adaptive

Intercultural

Micro-credentials are small learning units worth 1-5 ECTS that can be taken as elective courses as part of your degree program. They will transport you on short virtual trips across Europe, giving you the chance to learn with students from other Alliance universities and equipping you with future skills and competencies for a changing world. Micro-credentials are organised jointly by the Alliance partners.

Language Courses offer students and staff the opportunity to learn or improve a foreign language, including Polish for international participants. Students strengthen their communication skills and become better prepared for study, work and mobility abroad. Staff develop the language competences needed for international cooperation, project work and everyday contact with partners.

Language Tandems pair two people who want to learn each other's languages, for example, a Polish speaker and an international student or staff member. Each partner helps the other practise in an informal, friendly setting.

What can we do together?

It does not need to start with a large project or a new agreement — small steps can grow into lasting partnerships.

 **ERASMUS+ agreement for Students & Staff**

 **Visiting Professor programme**

Visiting scholars bring new knowledge and perspectives into our classrooms.

 **COIL & Virtual Exchange, Guest Lectures**

Develop collaborative online learning projects together. No mobility required — one online lecture brings a new perspective.

 **Joint Courses & BIPs**

Turn shared activities into joint courses and BIPs.

 **Staff & International Weeks**

Invite colleagues to each other's Staff Weeks and International Weeks.

 **Shared Themes**

Intercultural competence, languages, Future Skills, AI, inclusion and diversity.

A guest lecture can become a regular exchange; a BIP can become a joint course — and cooperation between two teachers can grow into cooperation between two institutions.

Beyond the Data — the Art of Science Communication

Partners: Nord University, Bodø (Norway) · University of Kiel (Germany)

Virtual: 1 Mar – 13 Jun 2027 · Physical: 14–18 Jun 2027 (Gdańsk) · 3 ECTS

WHAT THE PROGRAMME WILL COVER

A hands-on, interdisciplinary course in science communication: the art of public speaking, the elevator pitch, voice and body language, handling stage fright, designing a science show, and talking to the media — all aimed at helping researchers explain their work clearly, counter misinformation, and build public trust in science.

WHY THIS TEAM IS WELL PLACED TO RUN IT

Builds on strong track records at all three institutions: the Faculty's own BIPs ("One Health", 2025; co-organising "Microbes in Focus" in Lyon, 2026) and outreach events (Noc Biologów, Pomorska Noc Naukowców), Kiel's 15 years running Science Shows, and Nord University's experience with contests like TEDx, Forsker Grand Prix and 3 Minute Thesis.

PLANNED

12–20

planned participants per edition (5–10 places for each partner university)

PARTICIPATING COUNTRIES

Norway · Germany · Poland

Beyond the Textbook — Language Teaching in the Digital Age

Partners: University of Cádiz (Spain) · Charles University (Czechia) · St. Cyril and St. Methodius University, Veliko Tarnovo (Bulgaria) · University of Ss. Cyril and Methodius, Trnava (Slovakia)

Physical: 19–23 Oct 2026 · Virtual: 26 Oct – 29 Nov 2026 (35h online + 40h on-site)

WHAT THE PROGRAMME WILL COVER

Brings teachers from different philologies together to tackle shared challenges in modern language teaching: using AI in the classroom, building students' own AI competences, teaching mixed-language and mixed-culture groups, and creating digital teaching materials that keep students engaged.

WHY THIS TEAM IS WELL PLACED TO RUN IT

The Institute already has two successful BIPs behind it (2024–2026) — "Effective Communication and Language Acquisition in the New Civilisational Paradigm" and "Media Laboratory: Textual Practices in a Multimodal World". This new edition builds on that same network of trust and adds two more partner countries.

PLANNED

20

places, split proportionally among the partner universities

PARTICIPATING COUNTRIES

Spain · Czechia · Bulgaria ·
Slovakia · Poland

Future Skills for Law and Beyond: Navigating AI, Ethics and Innovation

Partners: Masaryk University (Czechia) · Europos Humanitarinis Universitetas, Vilnius (Lithuania)

Virtual: 22–23 Oct 2026 · Physical: 26–30 Oct 2026 (Gdańsk) · 5 ECTS

WHAT THE PROGRAMME WILL COVER

Prepares law students for a profession where legal competence must be paired with technological understanding: AI regulation (the AI Act, GDPR), algorithmic accountability, copyright in the age of generative AI, and a legal-risk-mapping workshop — building to Oxford-style debates and team-project presentations on AI, ethics and the law.

WHY THIS TEAM IS WELL PLACED TO RUN IT

The direct successor to the Faculty's LegalTech Fusion BIP (2024–2026) with the same two partners, which drew 22 participants and very positive feedback — this edition deepens that partnership with a sharper focus on future skills.

PLANNED

20

participants, split equally between the partner universities

PARTICIPATING COUNTRIES

Czechia · Lithuania · Poland

Circular City — Designing Urban Futures: From Infrastructure to Regeneration

Partners: Angel Kanchev University of Ruse (Bulgaria) · Universidade de Vigo (Spain) · University of Split (Croatia)

Virtual: 26–30 Apr 2027 · Physical: 10–14 May 2027 (Gdańsk) · 3 ECTS

WHAT THE PROGRAMME WILL COVER

An interdisciplinary look at designing and managing the cities of the future, structured in three blocks: urban resilience and liveability, sustainable mobility and access, and circular urban economies — turning waste into urban value. It closes with an "Urban Futures Lab", where teams design concrete solutions for more resilient, accessible, circular cities.

WHY THIS TEAM IS WELL PLACED TO RUN IT

The fifth consecutive edition of the Faculty of Management's city-themed BIP series — after Making City Sustainable (2023), Re-thinking Sustainable City (2024), Let's Make Cities Sustainable and Happy (2025) and Sustainable City (2026) — now joined by the Faculty of Economics and a new partner, the University of Split.

PLANNED

20

participants, split proportionally among
the partner universities

PARTICIPATING COUNTRIES

Bulgaria · Spain · Croatia ·
Poland

New Media and Digital Education in the Humanities: Challenges, Opportunities, Perspectives

Partners: University of Bari (Italy) · Stockholm University (Sweden) · University of Budapest (Hungary) · Kaunas University (Lithuania)

Virtual: 1–4 Dec 2026 · Physical: 7–11 Dec 2026 (Gdańsk) · 3 ECTS

WHAT THE PROGRAMME WILL COVER

Explores how new media and digital transformation are reshaping the teaching of literature, language and culture. International teams build national mini-reports on digital practice in youth culture and education, play a multimedia city game about Poland and the Tricity, run an AI-in-Polish-studies workshop, and visit the European Solidarity Centre and Museum of the Second World War.

WHY THIS TEAM IS WELL PLACED TO RUN IT

A genuine milestone: the Institute of Polish Philology has never organised a BIP or summer school before. Its debut aims to produce a joint comparative report — "New Media and Humanities Education in Europe" — a digital good-practice catalogue, and a lasting network with all four partner universities.

PLANNED

20

participants — 4 places for each of the
5 partner universities

PARTICIPATING COUNTRIES

Italy · Sweden · Hungary ·
Lithuania · Poland

Welcome Centre

Through interactive content, the Welcome Centre also manage social media to highlight orientation events, cultural integration activities, and peer-to-peer support networks for our international community.
